MESSAGING GATEWAY - ENTERPRISE IP MESSAGING GATEWAY

The TeleMessage Messaging Gateway includes various Interfaces for content providers, enterprises and other SMBs to send out messages, alerts and premium messages to customers and employees.

- The platform handles IP Messages, SMS, MMS as well as Voice, Fax, Conferencing and Email messages.
- The gateway includes the following interfaces: SMTP, HTTP, XML, SMPP, MM7, MM4, SNPP, WCTP, TAP and REST.
- Enterprise distribution tools from Outlook, Web, and Excel.
- Smartphone Apps for iOS and Android.
- Seamless delivery from legacy protocols to Smartphones over IP Push or RCS.

For Operators, the Messaging Gateway provides a secure and managed multi-channel entry point for content and applications, user generated content, and social network sites into the Operator's network. By facilitating application-to-person and person-to-application messaging traffic and value-added service provider connectivity to the operator's network, the Messaging Gateway ensures operator messaging resources are used efficiently and according to the Operator's policies.

Our new IP messaging engine provides seamless device discovery and automatic fallback to SMS/MMS. It works with Smartphones as well as RCS/IMS and allows seamless interoperability between legacy protocols and Smartphone IP Push notifications (i.e. SNPP/WCTP/SMPP delivery to Smartphones/RCS, with automatic fallback to SMS/MMS).

The system updates real time delivery status, allows escalation between devices, or multi-device delivery.

TeleMessage comes with downloadable iPhone and Android apps for IP messaging push, separating enterprise and personal messaging threads.

TeleMessage delivers intelligent and secure messaging solutions seamlessly over any communication device.

TeleMessage helps operators retain their subscriber base by enhancing the user experience and assists enterprises achieve greater efficiency by optimizing their communication capabilities.

TeleMessage seamlessly handles text, voice, data, multimedia and IP messages over mobiles, tablets, the web, Office, APIs and IT infrastructure.

Successfully deployed with over forty operators and thousands of enterprises worldwide, TeleMessage's software reaches hundreds of millions of users and powers billions of messages through customer networks.

TeleMessage product line includes: Mobile and Tablet Applications, PC to Mobile, Messaging Gateway, and SMS to Voice.

SERVICE BENEFITS

- End-to-end group notification and messaging solution
