

TeleMessage Mobile Archiver

Comprehensive Text Message Archiving

The use of the mobile device in the workplace has dramatically changed the way we work.

of an information worker's time is spent on a mobile device

of employees use mobile for work while on personal time

of work-related content is accessed via mobile devices

of content is created on mobile device

Only 50% of work generated on mobile is ever archived

TeleMessage can help archive your text messages. Archiving messages is an essential business practice, and often required by regulations that govern your business.

With all of the business messages and electronic files that are sent via text message or chat app, it is critical to protect and archive business mobile communications.

Financial Services

SOX, FINRA, SEC, GLBA, Dodd-Frank (USA); FSA & FCA (UK); MiFID II (EU)

Healthcare
