	5.2	Adding iOS app	19

1 Overview

This document will outline the steps needed to deploy applications via InTunes MDM.

Installing the app is composed of 4 steps.

- 1. Server Creating a group (if not already added)
- 2. Server Creating devices (if not already added)
- 3. Mobile phones inTunes mobile app installation and enrolment (if not already installed)
- 4. Server adding and distributing the application

2 Creating Groups

1. Click on Groups -> All groups -> New group

Microsoft Endpoint Manager a	admin center		
«	Home > Groups - All groups		
1 Home	Groups - All groups		
🗔 Dashboard	3	+ New group	s 🗐 Delete 🏷 Refresh 🛛 🛈 Prev
E All services	All groups	The out the new Groups experience in	approximants (improved source) and filtering) (
AVORITES	Deleted groups	Iny out the new Groups experience in	nprovements (improved search and intering). C
Devices	🗙 Diagnose and solve problems	Search groups	+ Add filters
Apps	Settings	Name	Object Id
