Choose any combination of mobile archiving products
Store employee messages with leading archiving vendors

Benefits of the TeleMessage Mobile Archiver

- Engage clients on mobile: Deepen client relationships and grow revenues
- Multiple mobile channels: SMS, MMS, Voice calls, WhatsApp, WeChat, Telegram and Signal
- Increase productivity: Efficiency and make your workforce reachable anywhere
- Store mobile communication: Metadata in the Cloud or On-prem
- Integrated with: Leading archiving and communication surveillance platforms
- Several archiving destinations: Allows delivery to monitoring & long term storage
- Full administration: Reporting, audit and retrieval capabilities
- Companies retain complete ownership: Data & mobile communication

Comply with evolving regulations for recording and retaining all mobile communications

FINRA: "... firms must retain records of text messaging apps or chat services..."

MiFID II: "...requires recording of telephone conversations, SMS, chat and mobile device applications..."

SEC: "...must archive text/SMS messaging and apps..."

CFTC: "... record all oral communications... written communications... instant messaging, chat rooms, electronic mail, mobile device..."

FCA: "Mobile communications and phone calls carried out by regulated employees outside the office must be recorded and monitored."
